

Stress Away™ Essential Oil Roll-On

Product Summary

Young Living's Stress Away Essential Oil Roll-On is the perfect on-the-go natural solution to combat normal stresses that creep into everyday life. This unique blend of vanilla, lime, and other essential oils makes relieving daily stress convenient and easy.

Product Story

Stress Away is the first product to be named by Young Living distributors, as well as the first to contain the unique stress-relieving combination of Young Living Therapeutic Grade™ (YLTG) lime and vanilla essential oils. Stress Away also includes copaiba and lavender to reduce mental rigidity and restore equilibrium. It also features powerful plant constituents, such as the cedrol found in cedarwood and the eugenol that occurs naturally in vanilla. Cedrol can help induce relaxation, while eugenol works to reduce nervous tension. All of these ingredients are expertly blended with the exotic scent of ocotea, Young Living's exclusive Ecuador single.

Adding to the uplifting aroma of Stress Away is a subtle hint of lime, from Young Living's unique coumarin-free lime essential oil. Regular lime, like most citrus essential oils, contains coumarins that are potentially photo-sensitizing and damaging to the skin. YLTG lime essential oil minimizes any skin sensitivity, particularly when used while in the sun.

Primary Benefits

- + Reduce stress any time, anywhere with the convenience and portability of an essential oil roll-on.
- + Use Stress Away in anticipation of events or situations that may cause mental tension.
- + Lessening normal everyday stress can lead to improved sleep and elevated state of mind.

Did You Know?

- + Ocotea essential oil is derived from the tall ocotea tree and has a long history of traditional usage in Amazonia.
- + Copaiba is the only essential oil extracted through tapping, similar to how maple and rubber are gathered.
- + The vanilla in Stress Away does not contain water, unlike most vanilla oil sold on the market today.

Stress Away™ Essential Oil Roll-On

Key Ingredients

- + Vanilla—the warm, sweet aroma of vanilla calms and reduces tension.
- + Lime—the delicious scent of lime is robust and refreshing.
- + Ocotea—ocotea has a cinnamon base with a kick of exotic luxury.
- + Cedarwood—with one of the highest known levels of sesquiterpenes, cedarwood works with the brain to improve relaxation.
- + Copaiba—supports the Stress Away blend with the powerful constituent beta caryophyllene.
- + Lavender—the floral scent of lavender calms any tense mood.

How To Use

Shake well and apply generously to wrists, neck, arms, or anywhere you love experiencing essential oils.

Cautions

Keep out of reach of children. If you are pregnant, nursing, taking medication, or have a medical condition, please consult a healthcare practitioner prior to use. Possible skin sensitivity. Do not apply to sensitive tissues. Not intended for children six years of age or younger.
